

Keyring Charms

What you will need

Craft Pack

1 plain wooden bead per student
Embroidery thread
Split Metal Rings
Mini metallic beads
Acrylic Deco Pens

From Centre Stock

Scissors
Card cut into 7cm square

Instructions

Use pens to colour in a wooden bead and leave to dry.

Choose 4 or 5 colours of embroidery thread. Wrap the threads around the card 3 times (picture a).

Pass another piece of thread under the wrap and tie in a tight knot to secure it. Slide the threads off the card and cut all the loops at the bottom to make a tassel. (picture b).

Pass the knotted threads through the hole in the wooden bead and pull so the tassel sits snugly up to the bead. Thread a small bead onto one side of the thread and knot tightly before passing the other thread back through the mini bead (picture c).

Thread more mini beads onto the two threads and knot tightly to make a ring of beads. Fit a keyring into the ring of beads. Trim the tassel to neaten (picture d).
