

# Pub Quiz

**Where:** \_\_\_\_\_

**What time:** \_\_\_\_\_

**Duration:** 75 minutes

**Group:** Blue / Red \_\_\_\_\_

**Student numbers:** \_\_\_\_\_

**What you need:**

1. A copy of the quiz questions and answers (7 rounds – Sport, Music, Geography, Science & Nature, History, English, Problem Solving).
2. Answers sheets for the 7 rounds for each group (**Note:** Before doing this activity, look through the questions and personalize it for your Elac centre as you may feel that some of the questions are outdated, too difficult/too easy etc. You may also need to adjust the length of the quiz depending on your students).
3. Enough pens for one per group.
4. A classroom/space where students can work in small groups.
4. Group register.
5. Risk assessment (indoor activity).

**Stage 1**

Take a register of your group to establish that everyone is present. Make a note of any absentees and make sure you tell the Activity Manager at the end of the session.

**Stage 2**

Divide students into groups of between 5-8 students. Try to make sure that each group is mixed in terms of nationality, sex, age and English ability as much as possible.

**Stage 3**

- Explain the quiz to the students;
1. There are 7 rounds (1. Sport, 2. Music, 3. General Knowledge, 4. Geography, 5. English, 6. Science & Nature, 7. Problem Solving).
  2. Each round has 10 questions, except round 7, which has 5 questions.
  3. Each question is worth 1 point, except in round 7 when they are worth 2.
  4. The Activity Leaders will read out each question twice.
  5. Each round will take approximately 5 minutes to complete.
  6. Groups should write their answers on the sheets provided.

7. After each 2 rounds, the groups have to hand in their answer papers, which will be corrected by the Activity Leaders. The papers are then given back to each group to continue with the quiz.
8. The team with the most points at the end of the quiz is the winner and will receive a prize at the talent show/awards evening.

Ask the students questions to check the students have understood what is going to happen e.g. Ask them: How many rounds are there? How many questions in each round? What happens at the end of each 2 rounds? etc.

**Stage 4**

Give each group the first answer paper and a pen. Ask them to start by writing the names of their whole group CLEARLY on the back of the list and to come up with a Pub Quiz team name which they should write on the front (give some help/suggestions if they are struggling to come up with a name as this shouldn't take longer than a minute or two).

Start round 1!

**Stage 5**

Give out the question and answer sheet for Round 7 at

Team/ Round	1	2	3	4	5	6	7	Total
A	8	3	7					18
B	7	5	7					19
C	6	9	3					18

the end and give students around 10 minutes to complete as many problems as they can.

**Note:**

If you have a white board in the room, it could be a nice idea to keep a tally of how many points each team have got so that everyone can see. That way it might make for a more competitive activity e.g.

At the end of the activity, remember to tell the activity Manager the names of the winning group so they can organize prizes/certificates for the end of course talent show/awards ceremony.

**Activity leader, remember!**

1. Keep language simple. Some students may not understand complex instructions. If it's important use concept questions and repeat it.
2. Your job is to motivate and organize. Make sure that you are proactive and encouraging.
3. Keep calm, don't lose your patience (with students or group leaders) and have fun.

9. If the adjective is "long," what is the noun? (Length)
10. What is a modal verb which means the same as "should"? (Ought to)

## Round 7 – Problem Solving (You might want to write these on the board)

1. We live in a large tower block, 10 floors high. My 5 year old son goes to school each day using the lift from the 10th floor to the ground floor. However, when he returns in the evening, he uses the lift to get to the 5th floor and then uses the stairs for the remaining 5 floors. Why?

**ANSWER:** He is too short to reach the button for the 10<sup>th</sup> floor. The 5<sup>th</sup> floor button is the highest he can reach at the moment.

2. A boy and a doctor were fishing. The boy is the doctor's son but the doctor is not the boy's father. Who is the doctor?

**ANSWER:** His mother.

3. A prisoner is in jail. There are two doors, one leads to freedom one leads to death. There is a guard at each door. One guard always tells the truth, the other always tells lies. The prisoner is allowed one question to either of the guards. What is the question that will take him to freedom?

**ANSWER:** If I were to ask the other guard which door leads to freedom, what would he say? Whichever door the guard points to, you go out the other door.

4. A cowboy went to London on his horse. It took 2 days to get there. He stayed for a day and it took him 1 day to get back. He went on Friday and came back on Friday! How?

**ANSWER:** His horse was called Friday.

5. Eskimos are very good hunters, but they never hunt penguins. Why not?

**ANSWER:** Eskimos live at the North Pole and penguins live at the South Pole.
